

PROVISIONAL CERTIFICATE OF ANALYSIS

13X NSC2 (batch Q)

Reference Material Information

Type: HIGH-NITROGEN STAINLESS STEEL (CHILL CAST)
Form and Size: Disc ~40mm diameter
Produced by: Polycast Ltd
Certified and supplied by: MBH Analytical Ltd

Provisional Composition

Percentage element by weight

Element	C	Si	S	Mn	Ni	Cr	Mo
%	0.57	1.0	0.014	8.00	3.58	20.9	0.34

Element	Al	Cu	Nb	V	W	N
%	0.39	1.06	2.00	0.30	0.063	0.30

Notes

These provisional values are based on the results from an incomplete interlaboratory testing programme which will be fully detailed on the final certificate. The stated values should be used for guidance only. This material should not be used for calibration purposes until formal certification is completed.

This document will be superseded in December 2019, and should not be used after that time.

This material will remain stable indefinitely, provided adequate precautions are taken to protect it from cross-contamination, extremes of temperature and atmospheric moisture.

The material to which this provisional certificate of analysis refers is supplied subject to our general conditions of sale.
