

PROVISIONAL CERTIFICATE OF ANALYSIS

14X Fe/Ni45 (batch C)

Reference Material Information

Type:	IRON/NICKEL ALLOY
Form:	Disc or Chips
Produced by:	Polycast Ltd
Supplied by:	MBH Analytical Ltd

Provisional Composition

Percentage element by weight

Element	C	Si	S	P	Cr	Ni	Al	Co	Cu
%	0.008	0.78	0.0015	0.028	0.075	45.9	0.99	0.58	0.090

Notes

The above values are based on the results from an incomplete inter-laboratory testing programme, and hence should be used for guidance only. This material should not be used for calibration purposes until formal certification is completed.

This document will be superseded in June 2018, and should not be used after that time.

This material will remain stable indefinitely, provided adequate precautions are taken to protect it from cross-contamination, extremes of temperature and atmospheric moisture.

The material to which this provisional certificate of analysis refers is supplied subject to our general conditions of sale.
