

PROVISIONAL CERTIFICATE OF ANALYSIS

33X GM4 (batch AD)

Reference Material Information

Type:	GUN METAL
Form and Size:	Disc ~40mm diameter, or chippings
Produced by:	Maybrey Reliance Foundry, UK
Certified and Supplied by:	MBH Analytical Ltd

Provisional Composition

Percentage element by weight

Element	Sn	Pb	Zn	Fe	Ni	Al	Si	As
%	3.02	5.27	5.94	0.091	1.485	0.0014	0.001	0.0228

Element	Mn	Bi	Sb	P	Co	Ag	S	Cu
%	0.0006	0.044	0.057	0.0035	0.0077	0.021	0.032	84.0

Notes

The above values are based on results from the later stages of an incomplete interlaboratory testing programme, which will be fully detailed on the final certificate. These values should be used for guidance only. This material should not be used for calibration purposes until formal certification is completed.

This document will be superseded in January 2018, and should not be used after that time.

This material will remain stable indefinitely, provided adequate precautions are taken to protect it from cross-contamination, extremes of temperature and atmospheric moisture.

The material to which this provisional certificate of analysis refers is supplied subject to our general conditions of sale.
