

PROVISIONAL CERTIFICATE OF ANALYSIS

39X 17868 (batch AH)

Reference Material Information

Type: COPPER WITH IMPURITIES
Form: Disc or Chips
Produced by: Polycast Ltd
Certified and supplied by: MBH Analytical Ltd

Provisional Composition

Percentage element by weight

Element	Pb	Zn	Fe	Ni	As	Bi	Sb
%	0.019	0.55	0.022	0.028	0.015	0.023	0.032

Element	Mn	Co	Ag	Cd	Mg	Al	Sn
%	0.020	0.005	0.020	0.028	0.010	0.010	0.031

Element	P	Cr	Se	Ge	In	Te
%	0.010	0.026	0.011	0.026	0.019	0.027

Notes

These provisional values are based on results from the early stages of an incomplete interlaboratory testing programme which will be fully detailed on the final certificate. The stated values should be used for guidance only. This material should not be used for calibration purposes until formal certification is completed.

This document will be superseded in June 2018, and should not be used after that time.

This material will remain stable indefinitely, provided adequate precautions are taken to protect it from cross-contamination, extremes of temperature and atmospheric moisture.

The material to which this provisional certificate of analysis refers is supplied subject to our general conditions of sale.
